Years at residence: Born and lived in Morgan County my entire life.

Qualifications: I have worked in the escrow and title business for twenty-eight years. I am very knowledgeable about the process by which property is conveyed from one to another. Being a state of Utah licensed title and escrow officer, makes me well versed in legal descriptions and the laws of property titles. My occupation has allowed me to help people buy and sell property throughout the state of Utah. My caring personality allows me to help people turn a sometimes stressful property matter into a positive experience. I have worked closely with several recorder offices throughout the state. In doing so I have seen how the different recorder offices are run. I believe I can take what I have learned from each of the offices and incorporate the best procedures from each office into making the Morgan County recorder's office run efficiently.
